# MINI BARS

# DOMETIC MINIBARS

ALWAYS AT YOUR SERVICE

Dometic minibars never rest. They cater discreetly to the needs of your guests – at any time of the day or night. Fitted with state-of-the-art refrigeration technology, Dometic minibars are highly energy-efficient. This reduces your operational costs as well as the impact on the environment. Most of our minibars are entirely silent and vibration-free, as they have no moving parts.

Besides functionality, design is another key factor to be considered when choosing the right minibar models for your guest rooms. Here again, our comprehensive range gives you many attractive options – from drawer minibars to nicely integrated solutions with customized door panels to beautiful freestanding model with double glazed glass door for enticing product presentation.

## DISCOVER DOMETIC THE WORLD'S NUMBER ONE FOR MINIBARS

- More than 45 years of experience in the hotel industry
- More than 5 million minibars installed around the world
- 10 million absorption refrigerators produced, "Made in Germany"
- All products are designed and engineered by Dometic Products Development and Operations Teams
- All Dometic production plants are certified according to ISO 9001 and ISO 14001

- Global customer support in more than 100 countries
- Comprehensive product range: minibars for all room designs, all requirements and all budgets
- Research & development, design, production, quality control, after-sales service – everything from a single source
- 7 years spare parts availability for most of the parts
- 10 years spare parts availability for door gaskets

## SUSTAINABLE MINIBARS FOR A CLEAN FUTURE

Chromate has been the established industry standard corrosion inhibitor used in the production of absorption minibars for decades. Current EU legislation, however, stipulates the phase-out of this substance latest during 2021 for import to Europe and from January 2020 for European production.

Does that mean an end to the noiseless and wear-resistant absorption cooling technology? No, it doesn't. After more than two decades of intensive research and development, we are now in the unique position to offer a sustainable alternative. The new inhibitor has been thoroughly in situ tested for over ten years and is now ready to substitute chromate in our minibar factory in Jaszbereny, Hungary. The challenge was to find an environmentally sound substance that would have the same anti-corrosive effect as the well proven chromate.

- Chromate-free inhibitor means environmental and health protection for production worker, customer and user.
- All our cooling technologies (absorption, silent thermoelectric and compressor) meet the most ambitious Energy Efficiency Index.
- Dometic products are fulfilling the new ErP legislation applicable from March 2021 (EU 2019/2016)
- Resource efficiency during the entire life cycle.

## AT HOME IN THOUSANDS OF HOTELS

Over the last 40 years, Dometic has supplied minibars to hotels and cruise lines around the world. Today, we are the market leader. In addition to cooling solutions, we provide a range of tough and reliable safes.

Dometic is the world's leading supplier of minibars to the hotel industry. And it is not only the most luxurious hotels in the world that come knocking on our door but also hotels of every star rating. For the past 50 years, there have been more than 5 million minibars manufactured by Dometic installed in hotel rooms around the world.

## THE NUMBER ONE CHOICE

You will find more Dometic minibars and safes than any other make in first-class hotels across the world. Why? Know-how accumulated over 45 years, a track record of innovation as well as leading design solutions are the three main reasons.

Our modern and energy-efficient range of noiseless drawer minibars (Dometic DM 20 drawer minibar).

The top of the line HiPro minibar comes with Fuzzy Logic, remote control temperature adjustment, lowest energy consumption for absorption minibars and unique features such as a self-diagnosis and cooling unit control system.

### DOMETIC DRAWER MINIBARS UNIQUE DESIGN, OUTSTANDING CONSTRUCTION

Our drawer minibars are a class of their own in terms of design, size and functionality. Noiseless cooling, convenient slide-out access.

Read more on this on p. 12

### DOMETIC HIPRO MINIBARS ENERGY SAVING CHAMPIONS

HiPro minibars consume less energy than any other absorption minibar in the world. Backed by decades of consistent research and development, this range's proven track record worldwide is associated with contemporary design, best cooling and energy saving performance, and well engineered technology.

Read more on this on p. 14

### DOMETIC HIPRO VISION MINIBARS WITH TRANSPARENT DOOR

A visionary door concept makes our HiPro Vision minibars an eye-catcher in the room and a sales booster for hotels. They can be nicely integrated into a piece of furniture, and they are just as great as stand-alone units.

Read more on this on p. 15

Convenient slide-out access, noiseless operation, low energy consumption: Dometic drawer minibars set new standards in design and efficiency. Dometic DM 20 is the world's first noiseless 20-liter class drawer minibar. Having the same width as conventional 30-liter absorption minibars, it will easily replace them. Dometic DM 50 provides 50 liters capacity in an award-winning design featuring an automatic slide-out tray for snacks and mini bottles and an adjustable drawer for bottles and cans.

- Unique design for convenient slide-out access
- Thermoelectric cooling unit for low energy consumption
- Noiseless cooling comfort
- Patented and design awarded technology

# HIPRO LINE MINIBARS

## UNSURPASSED PERFORMANCE

Dometic HiPro has redefined the standards for pioneering minibar design – the result of over decades of consistent development. With the aim of maximum customer satisfaction, we have scrutinised all the requirements of comfort and technology in detail. The result will impress you.

HiPro minibars are distinctive due to their contemporary design and a whole host of innovative technical detail solutions that are so unique that we have grouped them together under the name HiPro technology.

HiPro technology stands for a quality dimension which only Dometic can offer you.

- Modular system of shelves and door racks
- Lowest energy consumption for noiseless absorption minibars
- Setup diagnosis via LED
- Sensor-controlled LED interior light
- LED door opening control display (optional)
- Temperature setting by remote control
- Clip & Click: door hinge can be changed without tools
- Fuzzy Logic Technology
- Automatic Defrost
- Cooling unit control (CUC) for reliable and controlled cooling unit operation

HiPro 3000

## DOMETIC HIPRO VISION

Minibars with colored acrylic glass door

Dometic HiPro Vision minibars come with a unique, colored acrylic glass door that nicely displays the contents. Top cooling performance combined with efficiency and convenience make for a visionary minibar concept that will boost your sales.

- Unique acrylic glass door supports consumption for increased turnover
- Optimised energy management will save you money
- Cooling Unit Control (CUC) for reliable and controlled cooling unit operation
- Available in three attractive colors: Grey, Orange, Dark Blue

Cooling comfort with real savings potential. Eco Line NTE minibars have a noiseless thermoelectric cooling system with a superior energy efficiency. They will be a 100% fit replacement option for old 30 and 40 liter minibars from previous generations.

And it's not only you who benefits. The minibars in the Eco Line give your guests added value too. Snacks and beverages are kept chilled all the time.

**COMPACT AND COST EFFICIENT – ECO LINE NTE**

Look forward to your electricity bill. The minibars in the Eco Line have a record-breaking low power consumption. The outer dimensions of the minibar are also extremely compact thanks to the thermoelectric cooling units. Furthermore, the models score points with a well-organised interior and an attractive LED interior light.

- Noiseless thermoelectric cooling unit
- Adjustable temperature settings for efficient usage
- LED interior light for user convenience

**EASY CUSTOMIZING WITH BI MODELS**

Designed for built-in use: BI mini fridges are delivered with a sliding hinge to be fastened to the furniture door to compensate for the differing turning points between the furniture and fridge door. That means the refrigerators can be easily fitted with a front panel to suit your interior design concept.

# FROM STANDARD TO PREMIUM

## THE RANGE OF DOMETIC PROSAFE MODELS

Security is an essential requirement for hotel guests, and one of the main reasons for choosing or discarding a destination and a hotel. The Dometic GROUP, aware of this, is always developing and improving all of its products in order to meet the needs of customers.

The latest product innovation Dometic has launched is a proSafe range which goes one step further in terms of design, functionality, technology and security. This proSafe range has a very modern design with a color display, an illuminated keypad, the latest anti-tampering system and a new website platform which offers the possibility to

operate the safe with the strictest security. The elegant cabinets of the new proSafe generation have rounded corners and edges for enhanced safety. Contemporary design

- Master key
- LED interior light
- iAudit system – unique in the industry
- Remote Emergency Opening System (REOS 2.0) – ultimate security and user comfort
- Battery level check

### PREMIUM CLASS

Excellence in form and function: Dometic innovations like iAudit tracking and the REOS Remote Emergency Opening System ensure security on all levels.

### STANDARD CLASS

High security level combined with easy operation for perfect comfort and convenience.

## PRODUCT FINDER – THE QUICK WAY TO FIND THE RIGHT PRODUCT

### LASER-CUT DOOR

Our doors are precisely cut and crafted by a laser beam. This allows us to achieve 100% accuracy in dimensions and an extremely small clearance between the door and casing, making the door impossible to pry open.

### ANTI-TAMPER SYSTEM

With the anti-tampering system, Dometic offers a unique security feature for their models. All anti-tampering manipulation attempts are recorded in the electronic of the safe and can be tracked back at any time.

### REOS CODE

REOS stands for Dometic's Remote Emergency Opening System. The emergency-opening system from Dometic is based on an innovative encoding system. The unique solution combines advanced electronics with state-of-the-art online technology to allow simple yet highly secure emergency opening by authorised hotel staff.

### PREMIUM iAUDIT

All operations effected on a safe must be documented – for your own security and for your insurance provider. This is where

Dometic's Premium iAudit system offers a truly convenient solution: the integrated microchip provides storage capacity for the last 1,000 events.

### SAM

The unique Dometic safe management system (SAM) allows for iAudit Trail and one time emergency code generation (REOS) from a user friendly but PIN secured internet based software tool.

# PREMIUM CLASS IN-ROOM SAFES

## DOMETIC PREMIUM CLASS SAFES

Protection for more privacy – comfortably and with absolute reliability. With a Premium Class proSafe, a hotel room becomes a perfectly private haven for the guest. A safe place for storage, conceived and implemented according to the newest standards. Its innovative and customisable design suits every hotel in a stylish way. Smooth surfaces and rounded edges make it easy to look after and give it long-lasting character. A color display and the integrated soft-touch keypad make operation easy. And a Premium Class proSafe also

breaks new ground when it comes to protective properties: pioneering technology like the unique iAudit and the anti-tampering system ensure security on all levels. The demand for contemporary security systems with added convenience is supported by special features such as REOS 2.0 software with its emergency code-opening system (optional).

- LED interior light
- Laser-cut door and frame
- iAudit for convenient documentation
- Emergency opening with key and master code
- Remote Emergency Opening System (REOS 2.0) – ultimate security and user comfort (optional)

## WIDE CHOICE OF MODELS AND SIZES

Dometic ProSafe MD series Premium Class safes are available in various sizes to suit different capacity demands, interior designs and installation conditions. Sizes range from 8.2 to 29 liters.

Batteries included – Dometic safes come ready to use.

Optional inside plug to charge mobile devices.

Automatic opening – Safe door opens automatically.

Fixing kit – Optional fixing kit for secure fastening.

# DOMETIC STANDARD CLASS SAFES

ROBUSTLY MADE WITH USER-FRIENDLY FEATURES AND FUNCTIONS

It puts hotel guests' mind at rest to have a safe place for their valuables while travelling. Providing a secure space for important or valuable objects yet it is a distinctive feature when choosing a hotel room or suite. With a Standard Class proSafe, you can create a reliable spot in a guest room that is worth every penny. Security and functionality are paramount with all Dometic safe models. The Standard Class safe models offer your guests a high level of security thanks to their robust construction. Their simple and intuitive usability provides perfect comfort and convenience.

- Robust and reliable
- LED display
- LED interior light
- Master key and master code emergency opening
- Wide choice: vertical, horizontal, top-opening

## DOMETIC PROSAFE MDL – VERTICAL OR HORIZONTAL

MDL 408

MDL 193

With quality and security at their core, these value-for-money in-room safes significantly enhance the security of existing hotel rooms.

- Value-for-money solution for upgrading hotel rooms
- Vertical or horizontal model – both with 18.4 liters capacity
- Easy installation inside a cabinet or on the wall
- Emergency opening with master code or master key
- Battery-low warning alerts users to change battery

## DOMETIC PROSAFE MD 310 / 390 / 450 SAFE INVESTMENT

The doors on all the Standard Class safe models are precisely cut and crafted. Their robust construction and a locking system with extra-strong steel bolts leave no point of attack for burglars. The LED interior light minimises the risk of forgotten valuables. Fast and secure emergency opening is possible with a master key or master code (depending on the model).

- Robust, reliable construction for optimal safety
- LED interior light makes the contents visible at a glance
- Emergency opening with master key or master code

## DOMETIC PROSAFE MDT TOP-OPENING SAFE

Part of the Dometic Standard Class range, the Dometic proSafe MDT 400 X top-opening safe provides a simple, yet ingenious solution that is easy to operate and safe to use. The top-opening drawer safe can be integrated in an existing furniture drawer and provides easy access to guests' valuables. At the same time it meets the highest demands on ergonomic design, comfort and security with an LED inside light for standard, master key and master code opening possibility in case of emergency, digital LED illuminated keypad, four-digit code and top-opening stabilizer arm. An audio signal confirms that the safe is securely locked.

- Convenient access from above
- LED interior light makes the contents visible at a glance
- Enough room to fit laptop and tablet computers
- Ideal for installation into existing hotel room drawer
- Stabilizer arm for smooth opening and closing of the lid

# WINE REFRIGERATORS

PERFECT STORAGE CONDITIONS FOR WINES AND CHILLED BEVERAGES

Wine connoisseurs, gourmets and restaurateurs all agree: For a wine to unfold its full bouquet and flavour, both the storage conditions and the serving temperature must be right. It has been our job for decades to make sure they are. As specialists in mobile refrigeration and climate control, we have created a comprehensive product range for keeping wines at their optimum temperature.

Dometic wine refrigerators have proven their worth in bars, restaurants and hotels as well as in offices and private households. They meet the highest demands on quality and design and are available in numerous sizes and versions. All wine refrigerators are supplied fully equipped, including the shelves and all essential accessories.

## THE DOMETIC DESIGN RANGE

The Dometic Design Range is the perfect choice for those looking for a wine refrigerator to compliment a more modern kitchen decor. The elegant wine cabinets come with frameless glass doors – and dual temperature zones which are perfect to store and age wine for a long time in one zone while having the right serving temperature at any time in the other zone.

Various model versions are available, with capacities ranging from 7 to 115 Bordeaux bottles. Extra-slim for confined spaces, with side-by-side double door, or with a built-in column for easy integration. There's a perfectly matching wine refrigerator for every restaurant, bar, or kitchen layout – or your private home.

- Two temperature zones for storing different wines at the perfect temperature (except E7FG and E18FGD)
- Heat and Cool function quickly achieves and reliably maintains set temperature
- Frameless 3-layer glass door with UV light filter
- Integrated air circulation system for homogenous temperature distribution and high air quality
- Water tank and carbon filter create a perfect climate for storing and ageing wine
- Top energy efficiency rating – complies with new ErP requirements (as from March 2021)

**E7FG:** Super-slim design – just 148 mm wide – neatly blends in with the surrounding furniture

**E115G:** Serving drawer for storing open bottles upright

E7FG

E115FG
